CPG/FMCG companies are faced with a changing retail landscape dominated by a few large retailers – Walmart, Target, Costco, Food and Grocery and Drug - and higher uncertainty from consumer preferences and retail promotional policies. Just a few of your customers can exert a great influence on your planning, logistics and execution processes. However, the large retail customers have also created the infrastructure and the technology that provides retail shelf take-away data plus enhanced visibility into the inventory positions at both store as well as warehouse. The key is for the retail suppliers to leverage both consumption data and inventory data to create accurate demand plans.

Demand Planning provides application oriented consulting that will set up a Forecasting and Planning Tool and deliver a customized template that will help you hit the ground running in three weeks – just 3 Weeks!

RETAIL FORECASTING
UNDERSTAND YOUR POS!

IMPROVE YOUR POINT-OF-SALE (POS) FORECASTS AND RETAIL REPLENISHMENT

Are you a small supplier shipping to Wal-mart, Target, Costco, or other Retailers?
Are you leveraging the Retail Link or Partner’s On-line Data to improve your sales and profits?
Are you under pressure to improve in-store Stock levels?
Do you want to improve your POS forecasts and service levels?

If the answer is Yes to any of the above, then Demand Planning LLC has and a cost-effective solution for you.
CPG/FMCG companies are faced with a changing retail landscape dominated by a few large retailers – Walmart, Target, Costco, Food and Grocery and Drug - and higher uncertainty from consumer preferences and retail promotional policies. Just a few of your customers can exert a great influence on your planning, logistics and execution processes.

However, the large retail customers have also created the infrastructure and the technology that provides retail shelf take-away data plus enhanced visibility into the inventory positions at both store as well as warehouse. The key is for the retail suppliers to leverage both consumption data and inventory data to create accurate demand plans.

Demand Planning provides application oriented consulting that will set up a Forecasting and Planning Tool and deliver a customized template that will help you hit the ground running in three weeks – just 3 Weeks!

- Create a demand-driven pull forecast that incorporates the effects of changes in market, consumption patterns, and inventory cycles.
- Solve your data challenges for retrieval, archiving and organizing POS data from Walmart, Target, Costco and other syndicated sources such as IRI and Nielsen.
- Enable forecast aggregation so you can forecast customer-location, as well as brand level forecasting top-down, middle-out and bottom-up methodologies.
- Displays, floor stands, tabs, in-Store offers – No problem! Use our powerful event modeling methodologies to accurately predict event lift.
